

## Leg-Up (Räuberleiter)

Nominated for the games award:

**Das Goldene Schaukelpferd 2008**

This game is part of the family games series of intellego holzspiele.

### Leg-Up (Räuberleiter)

29 x 29 cm game board with recessed spaces and pitfalls,  
bottom board with lifting mechanism for fallen-down tokens,  
4 x 6 tokens (robbers) in yellow, red, blue and green,  
1 dice, 25 mm  
recommended selling price: EUR 89.00

### Rescue fallen-down tokens!

For 2 to 4 players.

Even robbers like to play. Each player is the leader of a band of robbers. In the robber land two, three or four bands of six robbers play against each other.

The robber band to reach the robber's den with three robbers first wins the game.

But be careful: the way to the den is full of pitfalls. Only a member of the same robber band can rescue a fallen-down fellow – with a leg up.

Warm beech wood gives this game a unique look and feel; the big maple tokens are very easy to grip. Its natural character and grain make this board game a unique attraction for just about every player.

Leg-Up (Räuberleiter), a well-crafted board game manufactured in Germany by intellego holzspiele, will definitely be an eye-catcher in your living room.
