Play Sudoku with style. The trendy game is now available in classic and precious design made of beech and maple. Beautifully designed counters replace paper, pencil and eraser. The board offers a clear overview and smooth exchange of the counters.

The basic rules to solve a Sudoku are simple:

In each row, column and sub-square, a number may be placed but once. From a mathematical point of view there are more than five billion possibilities to create a Sudoku. However, there is only one correct solution to each puzzle.

The SUDOKU Classic board by intellego holzspiele features accurately carved-out slots, perfectly fitting for the Sudoku counters. The numbers are printed onto the counters on both sides. The red figures are placed on the board at the start of the game. The player's mental work is done by the black figures. Each puzzle is solved smartly by exchanging the counters. The warm-looking beech wood is an eye-catcher and feels just great. The maple counters are big and easy to grip. Each player will get a unique copy of the game, as each warm-looking beechen board comes along with its own natural characteristics and grain.

All SUDOKU board games by intellego holzspiele are completely produced in Germany in top-quality and will definitely be an eye-catcher in the owner's home.
