

## SUDOKU classic nic

SUDOKU for beginners.

This game is part of the SUDOKU board game series by intellego holzspiele.

### SUDOKU classic nic

beech wooden game board,  
14 x 14 cm, 4 x 4 fields,  
16 natural-colored,  
double-sided Sudoku counters made of  
maple.

Recommended selling price: EUR 24.90

**A small game for grown-ups, too.** The nic-sized game is suitable for grown-ups looking for recreation. However, the game is also suitable for children of 5 years and older. This puzzle is substantially easier than the original Sudoku with 81 fields.

In each row, in each column and in each sub-square, a figure may be placed only once. There is only one correct solution to each puzzle. Although this Sudoku is based on numbers, there is no mathematical problem that needs to be solved.

The default counters are placed on the board with the red figure on top. During play, in order to complete and solve the puzzle, the counters are placed on the board with the black figure on top. Thus, it is always clear, which counters are the default ones.

The beautifully designed counters replace paper, pencil and eraser. The game board offers a clear overview and smooth exchange and positioning of the numbers. A solved puzzle appears in classy and beautiful wooden design with the combination of beech and maple woods.

SUDOKU nic – classic or color – is the smallest Sudoku from the SUDOKU board game series by intellego holzspiele: All games are made of high-quality beech wood. No matter if the game is square, circular, small, large with ecru maple counters or counters in brilliant colors - here, Sudoku fans will definitely find the game of their choice.
