4 x 3 maple tokens in yellow, red, blue and green,
4 naturally coloured acacia blockade tokens, 1 dice, 25 mm
Recomm. retail price: EUR 79.00

You're blocking my way! – Too bad!

The aim of the game is to be the first player to reach the centre of the board. This can only be done via the circles. Players have to clear the blockade tokens to do so and then use them to block their opponent if possible.

When a player encounters a blockade, they can relocate it in order to secure the path behind them. Whoever reaches the centre first wins the game.

Although CENTRO has clear, concise rules it does tend to get rather heated! This is particularly evident towards the end of the game as time begins to run out for both players...

This game is hand-made in Germany to the highest standards of quality. The board is made from beech wood and the coloured tokens are made from maple. The blockade tokens are made from naturally coloured acacia wood which means that they each have distinctive textures and characteristics.
